

PRODUCT DATA BULLETIN

Description and Typical Applications

MeadWestvaco PC-60 is a 70% solids sulfated tall oil fatty acid. It makes an excellent leveling aid and viscosity modifier in blade and roll coatings. Improvements in finished sheet gloss and reduced blade scratching are its most important features.

MeadWestvaco PC-60 can also be used in size press formulations applications for reducing sludge buildup.

Specifications

<u>Property</u>	<u>Minimum</u>	<u>Typical</u>	<u>Maximum</u>
Moisture	30.0	31.0	30.5
pH, 5% Solution	6.0	7.0	6.5
Total Alkalinity, % NaOH	1.30	1.70	1.5
Free Fatty Acid	27.0	35.0	31.0
Solids, %	69.0	70.0	69.5

Testing procedures are available upon request.

Shipping

Density, 77°F	8.9 pounds/gallon
Drums	55 gallon lined, 450 pounds net
Bulk	Tank trucks and lined rail cars
Shipping Point	Charlotte, North Carolina
